

MEET DARRELL & ALEXANDRA

The Back Forty Co-Founders say that the best is yet to come, and invite you to join them in your own second half/best half of life.

In 2003, Darrell found himself in a massive midlife transition, experiencing a revelation which altered his beliefs in what's possible for life's second half, birthing The Back Forty. Several years later, Alexandra participated in a Back Forty reading group, revealing insights which led to her own midlife transformation. Together they designed The Back Forty INFUSE Program to empower midlifers to move beyond the past into radical futures of play, passion, and purpose.
